BUSINESS STRATEGY CERTIFICATE

Program Description

Want to gain a competitive advantage for your business?

This certificate program will help you address today's most pressing strategic business questions and design a strategy for your own organization. Using game theory to enhance your view of the marketplace, you will examine change, disruption, and uncertainty in your industry, and devise strategies to respond to these variables effectively. As part of this strategy, you'll have the opportunity to assess possible internal roadblocks to overcome and create a plan to surmount them. Evaluating a series of approaches including M&A, strategic alliances, and organic growth, you will also identify potential synergies to boost your organization's value creation and profitability and develop the necessary skills to optimize the web of relationships that drive your business. Finally, you will explore ways to leverage the power of digital platforms to grow your organization, through in-house development or advantageous interactions with outside platforms.

Throughout the program, you'll engage with many detailed real-world examples and practical exercises that will help you see the world differently and ultimately develop savvier strategies to create sustained business success.
