

# REGULATORY AND ANTITRUST LAW CERTIFICATE

## Program Description

Regulations affect virtually every corner of business. In this certificate program, you will investigate the regulatory environment in which your business operates and how the rules, orders, and guidelines that regulatory bodies issue may affect your industry. You'll also have the chance to explore U.S. antitrust laws, which focus on preventing three categories of behavior: agreements that restrain trade, monopolies, and mergers that restrict competition. Partnering with your legal team, you'll examine ways to influence and challenge adverse regulatory policies issued in your industry as well as coordinate responses to actions taken by regulatory bodies. By the end of the program, you will have gained a set of tools that will enable you to be a more active and informed partner to your legal team so that together you can navigate the regulatory landscape and advance the business interests of your organization.

## Key Takeaways

- Assess the regulatory environment in which your business operates
- Partner with your legal team to influence regulatory policy in your industry
- Explore how regulators and courts have defined agreements that restrain trade
- Examine how courts and regulators decide if a merger will hurt competition and should be prohibited

## What You'll Earn

- Regulatory and Antitrust Law Certificate from Cornell Law School
- 48 Professional Development Hours (4.8 CEUs)

## Who Should Enroll

- Managers and executives
- Legal and paralegal professionals
