

SYSTEMS THINKING CERTIFICATE

eCornell CIPA525	Designing Organizations for Systems Thinking	0
eCornell CIPA526	Becoming a Systems Leader	0

Program Requirements

To succeed and thrive in today's increasingly interconnected world, the ability to frame, manage, and solve complex problems has never been more essential. This program provides concrete systems thinking tools you can apply to analyze complex situations and foster a culture of organizational learning. You'll be able to integrate systems thinking concepts, principles, and practices to improve existing processes, operations, and thinking patterns, ultimately developing a more three-dimensional mindset in both work and life.

Key Takeaways

- Devise more effective approaches to managing complex systems, situations, processes, and problems
- Analyze and model changes to complex systems
- Enhance the logic you use to solve problems
- Strengthen your emotional intelligence through structured awareness
- Build a culture that inspires systems thinking at the organizational, team, and individual levels of the organization

What You'll Earn

- Systems Thinking Certificate from Cornell University's Jeb E. Brooks School of Public Policy
- 60 Professional Development Hours (6 CEUs)
- 60 Professional Development Units (PDUs) toward PMI recertification

Who Should Enroll

- Technical and engineering leaders
- Project managers
- Consultants
- Analysts
- Business decision-makers
- Team leaders across any industry

Total Investment

- 3 months to complete all the courses

How to Enroll
